| <b>Average value</b>                   | <b>18.03</b> |

|        |        |         |       |         |
|--------|--------|---------|-------|---------|
| φ L    | φ R    | (+)     | (/)   | Norm    |
| 249.43 | 183.38 | 432.81  | 1.36  | 0.9-1.1 |
| Left   | Right  | L/R     |       | Norm    |
| 155.36 | 277.44 | 0.56    |       | 0.9-1.2 |
| Up     | Down   | Up/Down |       | Norm    |
| 191.13 | 241.68 | 0.79    |       | 0.9-1.2 |
| L2     | L1     | H1      | H2    |         |
| 14.37  | 10.74  | 26.23   | 22.13 |         |

#### Recommendations

**Colon**

**Insufficiency**

**Pancreas and Spleen**

**Hyperactivity**

The organ that is most often in the greatest insufficiency requires the greatest attention. An organ in a state of hyperactivity is compensatory; your observation is recommended. As a rule, no action is required.

If you observe an organ metric below 15% for several days, you should consult a doctor.

- Insufficiency
- Hyperactivity
- Diet
- Dietary recommendations
- Food
- Exclude
- General recommendations
- Physical exercise
- Additional recommendations

Always seek the advice of your physician or other qualified health care provider with any questions you may have regarding a medical condition or treatment and before undertaking a new health care regimen, and never disregard professional medical advice or delay in seeking it because of something you have read on this ...
