L2	L1	H1	H2
<b>4.53</b>	<b>2.40</b>	<b>11.52</b>	<b>9.10</b>

#### Recommendations

**Kidney**

**Insufficiency**

**Immune system**

**Hyperactivity**

The organ that is most often in the greatest insufficiency requires the greatest attention. An organ in a state of hyperactivity is compensatory; your observation is recommended. As a rule, no action is required.

If you observe an organ metric below 15% for several days, you should consult a doctor.
